Re: Bisphenol A

Dear Natalie,

This is in response to your inquiry concerning Bisphenol A (BPA) in the 307x112 60# TFS Gold/Aluminum cans (VCC part number 7154-10304).

In a letter dated April 24, 2008 from our coating supplier the aluminized vinyl formation 89X053C doesn't contain any levels of Bisphenol A.

The information in this document is provided in good faith based on the letter dated April 24, 2008. If you have any questions or require additional information, please do not hesitate to contact me at 858-481-3637 or [dshrock@vancan.com](mailto:dshrock@vancan.com).

Sincerely,

A handwritten signature in blue ink that reads 'Danielle Shrock'.
